Professional Summary

Dedicated Frontend Developer with a passion for creating dynamic and responsive user experiences. Proficient in HTML5, CSS, JavaScript, and responsive web design. Experienced in utilizing APIs, designing interfaces using Figma, and building modern applications with React. All projects are hosted and available on GitHub.

Work Experience

Frontend Developer Intern

Vica Web Solutions — (August 2024 – January 2025)

I built user interfaces using HTML, CSS, and JavaScript. I designed layouts based on Figma prototypes and integrated APIs into projects, utilizing React for development. I achieved an 88% performance rating.

Frontend Developer Trainee

Projects SY Institute — (September 2023 – November 2023)

Throughout my training, I learned React, React Router, and Material-UI (MUI). I built interactive web applications by effectively integrating various libraries and APIs to create robust and dynamic projects.

Projects

- **Blogs:** Multi-page project featuring online courses. Built using React, React Router, and React Icons.
- **devTaha:** A personal website showcasing my projects, skills and experience in frontend development, Using React, Material UI
- **To-do List:** A web application for managing a to-do list with CRUD operations. Using React, React Router, Material-UI.
- **EduPress:** Online courses platform using HTML, CSS, and JavaScript. Includes Arabic translation support and a Dark/Light mode toggle for enhanced user experience.
- **Multi-Step Form:** A form with several steps to complete the payment process, built with HTML, CSS, and JavaScript.
- **Space Tourism:** A multi-page website featuring planets, destinations, crew, and technology using HTML, CSS, and JavaScript.
- **Sneakers:** A landing page for e-commerce products, using React.
- **Manage Posts:** A web app for managing posts with CRUD operations using a real API, implemented with HTML, CSS, JavaScript, and API.

Technical Skills

- Languages : HTML5 , CSS3 , JavaScript
- Frameworks : React
- Libraries : React Router, Material-UI (MUI), React Icons, Formik, Yup, Y18N
- Tools : Git , Figma , API Integration

Education

Ittihad Private University

Currently studying Informatics Engineering, gaining foundational knowledge in computer science and software development.
